

# DarkLight®

In internet connectivity terms, there is no better connection than having pure fibre direct to your school's premises.

However, this has traditionally been prohibitively expensive with a 1Gbps connection costing between £20,000 and £30,000.

Not anymore.

Exa Education is now able to provide symmetrical connections from 100Mbps to 10Gbps and beyond at incredible prices.

**Starting at just £299 per month, DarkLight can transform the digital capabilities of your school.**

Delivered using our dark fibre network, we are able to provide you with complete flexibility over your school's internet connection. This means that if your requirements change, we can amend your bandwidth within moments. This could be a permanent increase in capacity to accommodate greater use of cloud computing, growth, an increased use of rich media, or just a temporary increase for a special event.

With DarkLight, everything is possible.

## The Detail

DarkLight is a pure fibre connection direct to your school's premises.

Delivered using our dark fibre network, the service is not limited by the traditional constraints of bandwidth purchasing or leased line capacity. Instead, you will receive a completely future-proofed service capable of accommodating all data, pupil or infrastructure growth your school might experience.

Dedicated point to point to your site, you will receive an uncontended line. This means that the line is not shared with any other users. As the connection is symmetrical, you can upload data as quickly as you can download; removing all barriers to cloud-based storage and services.

DarkLight connections have an installation time of 40 calendar days, and an SLA of 99.99% network uptime with an 8 hour resolution time.

Contention	Product	Speed (symmetrical)	Price (monthly*)
<b>1:1</b>	DarkLight 100	100Mbps	£299
	DarkLight 300	300Mbps	£349
	DarkLight 500	500Mbps	£399
	DarkLight 1000	1Gbps	£499

There is an introductory installation price of just £500 for our first 125 DarkLight customers (usually £2,500). Subject to site survey.
